

ADA IMPLEMENTATION PLAN FOR

(Facility Name)

On _____, a Barrier Removal Analysis of our aquatics facility was
(Date)
performed by:

_____	_____
(Name)	(Title)
_____	_____
(Name)	(Title)
_____	_____
(Name)	(Title)

The analysis verified that our facility falls under Title II or Title III of the American Disabilities Act, and we
(Select One)
will need to comply with the requirements of this act, to the extent that such compliance is readily
achievable, by March 15, 2012.

Our analysis revealed that our facility has _____ pools/spas that need to meet with the
(Quantity)
ADA requirements. The bodies of water include:

- (List type of body of water and how many linear feet)

- (List type of body of water and how many linear feet)

- (List type of body of water and how many linear feet)

- (List type of body of water and how many linear feet)

The following is our implementation plan for meeting our obligations under the ADA requirements
(outline Plan for each body of water here):

We realize that barrier removal is an ongoing responsibility and the elements of this plan that are not readily achievable today may change in the future. At such time we will make the required modifications as our budget permits.

In order to insure that our pool lift operates properly (outline maintenance plan here),:

This program will be reviewed every year to insure that we will continue to meet our accessibility requirements.
